MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director of Central Intelligence

FROM:
Deputy to the DCI for Resource Management

SUBJECT: Funds for Security R&D in Support of New U.S. Embassy in Moscow (S)

REFERENCE: Memorandum for D/DCI/RM from DCI, dated 14 November 1979;
Subject: Funding for Construction Security at New U.S. Embassy, Moscow. (S)

1. Action Requested: None. This memorandum summarizes actions taken to fund security measures for the new U.S. Embassy in Moscow. (S)

2. Background: On 14 November 1979, by reference above, you asked me to take necessary action to see that funding was provided for a series of security measures for the construction of the new U.S. Embassy in Moscow. Assistance was requested of the Director of OMB on 18 December 1979. By March it was obvious OMB was not going to be of any practical assistance and, therefore, I directed my staff to solve the problem with State and the involved elements of the Community. The results are as follows: (S)

- State has acknowledged responsibility for and funded as of now, all but in FY 1980 for the following projects. I believe they will find the remaining shortly.

25X1A Since the [] State shortfall is the only outstanding unfunded
25X1A requirement, and they have indicated at the Assistant Secretary level that
they would find the funds, I believe we have satisfied your charge to me. I
will keep an eye on these actions to ensure they stay on track and leave it
to [] to keep you apprised of the progress on the total security
effort. (S)
